## INDEPENDENT AUDITORS' REPORT

### Members of the Board Fennville Area Fire Board

We have audited the accompanying financial statements of the governmental activities and the major fund of the Fennville Area Fire Board as of and for the year ended June 30, 2007, which collectively comprise the Fire Board's basic financial statements as listed in the contents. These financial statements are the responsibility of the Fire Board's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the major fund of the Fennville Area Fire Board as of June 30, 2007, and the respective changes in financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

The budgetary comparison information, on page 10, is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Fennville Area Fire Board has not presented a management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

The accounting policies of the Fennville Area Fire Board (the Fire Board) conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governments. The following is a summary of the more significant policies:

*a) Reporting entity:*

In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, these financial statements present the Fire Board. The criteria established by the GASB for determining the reporting entity include oversight responsibility, fiscal dependency, and whether the financial statements would be misleading if data were not included. The Fire Board has determined that no other outside agency meets the above criteria and, therefore, no other agency has been included as a blended or discretely-presented component unit in the Fire Board's financial statements.

The Fire Board is a joint venture of the City of Fennville, Manlius Township, and Clyde Township, formed June 27, 1985, to provide fire protection within the participating municipalities. Costs of operations and capital expenditures are supported by contributions from the participating municipalities.

*b) Basis of accounting:*

The statement of net assets and the statement of activities are reported using the economic resources, measurement focus, and the accrual basis of accounting. Revenue is recorded when earned and expenses when a liability is incurred, regardless of timing of related cash flows. Grants and similar items are recognized as revenue as soon as all the eligibility requirements imposed by provider have been met.

The Operating Fund financial statements are reported using the current financial resources, measurement focus, and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Authority generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

*c) Assets and liabilities:*

*i) Bank deposits* - Cash is considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investments are stated at fair value.

*ii) Capital assets* - Capital assets, which include land, buildings, equipment, and vehicles, are defined by the Fire Board as assets with an initial cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

**NOTES TO FINANCIAL STATEMENTS (Continued)**

---

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

c) *Assets and liabilities* (continued):

ii) *Capital assets* (continued) - Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements	20 - 40 years
Equipment	10 - 20 years
Vehicles	5 - 15 years

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

*Budgetary information*

An annual budget is adopted on a basis consistent with generally accepted accounting principles for the Operating Fund. The budget document presents information by function and line-item. The legal level of budgetary control adopted by the governing body is the functional level. Budget appropriations are considered to be spent once the goods are delivered or the services rendered. All annual appropriations lapse at the end of the fiscal year. There were no expenditures significantly in excess of amounts budgeted.

NOTE 3 - CASH:

*Deposits with financial institutions:*

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) and the Fire Board's investment policy authorize the Fire Board to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations that have an office in Michigan. The Fire Board's deposits are in accordance with statutory authority.

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the Fire Board will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by depository insurance. At June 30, 2007, the Fire Board's bank balances of \$49,859 were fully insured, and were, therefore, not exposed to custodial risk.

**Members of the Fire Board  
City of Fennville, Michigan**

In planning and performing our audit of the financial statements of the Fennville Area Fire Board as of and for the year ended June 30, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the Fennville Area Fire Board's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fire Board's internal control. Our consideration of internal control included procedures to evaluate the design of controls relevant to an audit of financial statements and to determine whether they have been implemented, but it did not include procedures to test the operating effectiveness of controls, and accordingly, was not directed to discovering significant deficiencies in internal control. Accordingly, we do not express an opinion on the effectiveness of the Fire Board's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a deficiency in internal control that we consider to be a material weakness.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We believe that the following deficiency constitutes a material weakness.

- The Fire Board does not have procedures in place to prepare financial statements in accordance with U.S. generally accepted accounting principles, including procedures to record changes in capital assets and long term debt, and to present required financial statement disclosures.

This communication is intended solely for the information and use of the Board of Trustees of the Fennville Area Fire Board and the State of Michigan Department of Treasury and is not intended to be and should not be used by anyone other than these specified parties.
